Available with Evernote Personal, Professional, and Teams.

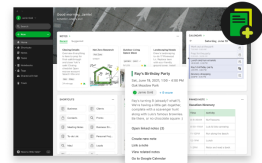

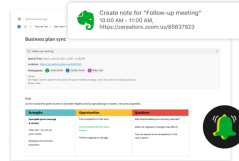

Jump start your day

Prepare for meetings faster, ahead of time or on the spot. One click sets up a new note, complete with event details.

Psst. Forget something?

Evernote can remind you to take notes before or after your meetings, so you never miss a detail.

No more mystery notes

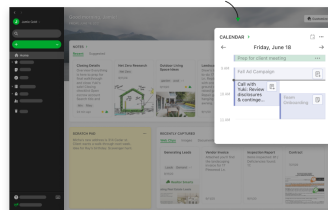

Link notes with calendar events so ideas and decisions stay connected to the people, places, and activities that sparked them.

Calendar is available with Evernote Personal, Professional, and Teams.
